October 2007

To Whom It May Concern:

I would like to take this opportunity to recommend Murray Brothers Construction, Inc. (MBC) for Construction Project Management and General Contracting. MBC has assisted the Southern New England Conference Association of Seventh-day Adventist in many building projects, ranging from new construction of million dollar buildings to emergency response for leaky roofs. Most recently MBC has completed the restoration of the Framingham Center Seventh Day Adventist Church after a fire destroyed the building. MBC interfaced very well with structural engineers, architects, sub-contractors, insurance adjusters, and local officials.

MBC consistently brings value engineering to each project they have been involved in. The knowledge and experience of the MBC team continues to be evident as each project presents unique challenges and opportunities for increased value. I have found estimates and proposals provided by MBC to be realistic and budgets to be accurate. I count on MBC to provide completion of projects; on time and on budget.

Sincerely,

Jeff Linthwaite
Property Manager and Association Secretary,
Southern New England Conference Association of SDA
