To Whom It May Concern:

Keith Chenot and I have worked with Murray Brothers Construction for almost a decade. We have consistently found them to be conscientious, timely, straightforward and thorough. Their professionalism shows in their individual and corporate attitude, and in their completed projects.

Previous projects with Chenot Associates include new construction and renovation work.

Currently, MBC is the qualified contractor we recommended for preservation of the historic Daniels Farmstead, a National Register site, in Blackstone, Mass. We and the client are delighted with the quality of their work.

MBC has also won the bid to construct an exterior canopy for the new entrance to the lower level of the 1907 Fobes Memorial Library in Oakham, Mass. With a break in the weather, assembly of the carefully fitted post and beam structure began yesterday, and appears to be on track for another fine quality project.

We highly recommend Murray Brothers Construction, without reservation.

Please let us know if we can be of additional assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Warbasse", with a long, sweeping underline.

Phillip Warbasse, V.P.
